Special Topic Issues of *Pure and Applied Chemistry*

The special topic issues of *Pure and Applied Chemistry* comprise research papers and short, critical reviews organized around a central, compelling theme. Recent issues covered the following topics:

- ◆ Aromaticity, 2010
- ◆ Green–Sustainable Chemistry, 2007
- ◆ Natural Products and Biodiversity, 2007
- ◆ Organometallics in Synthesis, 2006
- ◆ Organic Synthesis, 2005
- ◆ Endocrine Active Substances, 2003
- ◆ Natural Products, 2003
- ◆ Science of Sweeteners, 2002
- ◆ Nanostructured Advanced Materials, 2002
